welcome

We think you, your family celebrations, your friends and your true loves are beautiful, and any images that represent these milestones should illustrate the pure joy in these moments.

what to  
choose

### Engagements

...Quite possibly the most endearing part of photographing the marriage process.

For your benefit, shoot locations can be within a forty five mile radius of Atlanta with no additional charge. Feel free to express your portrait vision and location preference. If there is no preset thought, I'd love to suggest options. Engagements are the best way to casually loosen up before the wedding photos.

### Eloperments

A new trend and super intimate... Eloperments are beautiful and raw. They display the unity so simplistically without losing any spark of the real wedding day. By focusing more directly on the marriage, they emit so much love. Photographing on secluded mountaintops or serene beach scenes, these sessions present endless options.

### Weddings

Celebrations of all genres... These are the best way to portray how your love really feels while celebrating with your biggest supporters. Weddings can depict elaborate or quaint, classic or whimsical feels, yet they always surround a love. Cultivating these celebrations are the best labor of love.

what is
